Buildwise – Urban Mining – Hergebruik

1 | Integratie van BIM in de verschillende fasen van het bouw- en ontmantelingsproces.

Buildwise – Urban Mining - Hergebruik

Interreg North-West Europe Digital Deconstruction

European Regional Development Fund

WPLT LONG TERM

D.LT.1.4 Blueprints for regional market places

Analysis of digital trading platforms for construction products in North-Western Europe

Strengths	Weaknesses
- Managing multi-locations stocks - Fluidifying logistics and optimizing storage spaces - Offering guarantees - Working as a network of actors	- Digital platform as an auxiliary activity - Avoiding the all-digital - Non coordinated cross-publications
Opportunities	Threats
- An entry door to other services - Favorable context to circular economy	- Too many solicitations - A fluctuating market not mature enough - Keeping a physical contact
